

What is claimed is:

- 1 1. A flat display, comprising:
2 a first stand;
3 a second stand detachably connected to the first
4 stand; and
5 a main body selectively supported by the second
6 stand while the first stand is connected to the second
7 stand or merely by the first stand.
- 1 2. The flat display as claimed in claim 1, wherein
2 the first stand is hinged on the main body.
- 1 3. The flat display as claimed in claim 1, wherein
2 the second stand has a flat bottom surface to stabilize
3 the main body when the main body is supported by the
4 second stand.
- 1 4. The flat display as claimed in claim 1, wherein
2 the second stand is hollow to house the first stand when
3 the first and second stands are connected.
- 1 5. The flat display as claimed in claim 4, wherein
2 the second stand includes a rail inside for guiding
3 insertion of the first stand into the second stand.
- 1 6. The flat display as claimed in claim 4, further
2 comprising a spring disposed in the second stand to push
3 against the first stand when the first stand is housed in
4 the second stand.
- 1 7. The flat display as claimed in claim 4, wherein
2 the first stand defines a hole, and the second stand
3 includes an engaging portion fit into the hole when the
4 first and second stands are connected.
